

# SEDA ASLAN

DANIŞMANLIK ,MİMARLIK LİMİTED ŞİRKETİ

Seda Aslan Mimarlık was founded in 2024 in Istanbul by architect Seda Aslan.

The company aims to provide creative and sustainable solutions in the fields of restoration, residential, commercial buildings, and urban development projects.

# About :

With the founder's nearly 20 years of international and local experience, the firm collaborates with a team specializing in architecture, design, and project management.

# Mission:

To create projects that enhance the quality of life by combining aesthetics, functionality, and sustainability in design. By offering solutions that bridge the past and the future through the restoration and preservation of heritage structures, the firm adopts an approach that values art and technical solutions in architecture simultaneously.

# Vision:

To become a leading brand in the industry with innovative and sustainable approaches in architecture. To preserve cultural heritage while redesigning modern living spaces within the framework of aesthetics and functionality. To be a pioneering architectural firm that transforms user experiences by integrating art and technology across a wide range of projects, from restoration to urban development.

# Core Values:

- **Creativity:**

Shaping designs with original ideas.

- **Quality:**

Demonstrating an excellence-driven approach at every stage.

- **Sustainability:**

Developing environmentally conscious projects.

- **Teamwork:**

Bringing projects to life with the highest level of collaboration and communication.

A group of five people, four women and one man wearing a black cap, are gathered around a table at a construction site. They are looking at and pointing to architectural blueprints spread out on the table. In the background, the wooden framework of a building under construction is visible.

# Services:

## **1. Architectural Design:**

- Creative design solutions for residential, commercial, and public projects.

## **2. Restoration and Preservation:**

- Restoration services blending modern and traditional methods for heritage structures.

## **3. Project Management and Consultancy:**

- Technical and managerial support throughout all project phases.

## **4. 3D Modeling and Visualization:**

- Presentation of projects with high-quality renderings and animations.

## **5. Urban Design and Planning:**

- Innovative solutions for urban area development.
